## Holy Virgin

**Slim at the front, “Baroque” at the rear!**

**The full package from Rick’s for Harley’s 110 ci power monster!**

It has been known for a long time: if you want to find that special kick in the Harley-Davidson model program, you find it often among the models which have been kitted out with parts from the Screamin’Eagle parts and accessories program. The components are all derived from many years of racing experience which official Harley dealers and their customers have been gaining on the drag strips, because in the USA what counts are ‘pull-through from the bottom’ and acceleration.

## Tech Facts

**Manufacturer:** Harley-Davidson
