## Softail Fat Boy Special 300

### Fat in Black

2016 FLS Softail Slim basis for Rick's Custom

The Harley-Davidson FLS models Slim and FLSTF Fat Boy are always popular starting points for Rick's custom bikes – no matter from which year. Both models normally offer a good basis for a Bobber or 'Old School' conversion with foot boards and a generous fork fairing. But the customer who ordered this conversion wanted none of them...what was wanted was Rick's power style without compromises...and for this many stock parts went back onto the shelf and were exchanged for new Rick's components. While frame and engine interior remained stock – apart from Rick's 'Good Guys' air filter and Jekill & Hyde adjustable exhaust system – the look of the basic model was changed radically, at the front and the back!

## Tech Facts

**Manufacturer:** Harley-Davidson

**Stretch:** -4"

**Riser:** Rick's Motorcycles

**Modell:** Softail Fat Boy Special

**Swingarm:** Rick's Motorcycles 300

**Handlebar:** Rick's Motorcycles V-Rod 1"
