## „Dirty Thirty“

Rick's 30-inch Bagger in Rome!

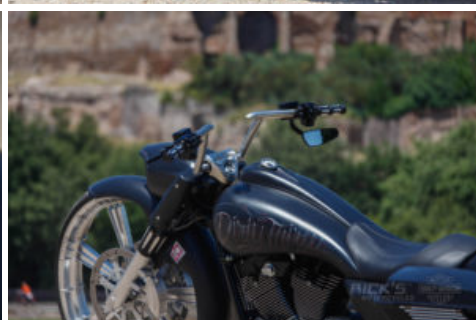

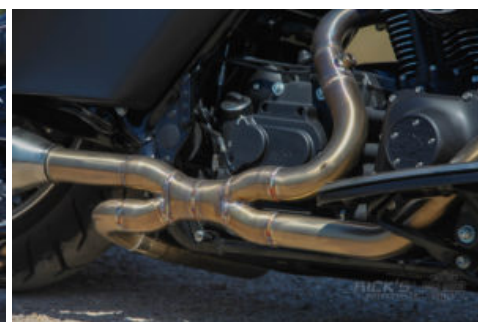

“On the road” test ride with the prototypes: Rick's ride the first 30-inch front wheel “Made in Germany” to Rome!

When Rick's develops a new product, then company owner Patrick Knörzer often lends a hand as well or tests it comprehensively during the TÜV proceedings. While the 30 inchers passed the TÜV tests successfully, a Rick's Bagger rolled out of the House of Custom workshop in Baden-Baden and then went via Munich via Trieste, Lake Garda and along the Italian coast to Harley-Davidson's 110<sup>th</sup> birthday celebrations to Rome...not only in sunshine and on the best roads, but instead with a successfully constructed high-speed Bagger chassis which can withstand demanding road surfaces and all sorts of speeds.
