Rick's understatement Street Glide

Custom bikes and elaborate conversions often shine because of special paint jobs, which signals to everyone that this is a very noble machine, and the bikes from Rick's Motorcycles are no exception. Reason enough for them to point out that even with a dark mousey grey, a cleanly styled bike can also look stunning. Emphasis is always put on the icing of the cake, i.e. the paint job, which underlines and emphasizes the bike's complete look.
