Blue Thunder – Street Bob „Clubstyle“

The FXBBS “Street Bob” is one of the most versatile Harley-Davidson Big Twins – and Rick’s Motorcycles has developed an extensive parts program allowing any “Street Bob” to be customized into a great variety of styles: from Bobber to exciting high-tech Rick’s “Fat-Ass” Customs – or the trendy “Clubstyle” performer! With 95 hp from stock 1.886 cc, the stock engine has plenty of „boiler pressure“ already available, especially when you consider that 155 Nm of torque are already available at 3250 rpm. The “Street Bob” was already a popular stunt and „action“ bike in the “Twin Cam era” – and with the new Milwaukee Eight rolling chassis, the FXBBS has won even more friends.
