Grey Lowrider

“Grey Low Rider” – Rick’s Low Rider ST FXLRST hop-up! Milwaukee’s Sport-Softail, upgraded with Rick’s Clubstyle parts!

Welcome to “Clubstyle”: Rick’s Motorcycles upgrades a stock version of Harley-Davidson’s FXLRST Low Rider ST using Rick’s 2024 “Clubstyle” parts.

In model year 2024, the Low Rider ST, featuring the distinctive frame-mounted fairing, remains a top seller in the Harley program. Whether with the cool stock fairing or “customized” using Rick’s FXRT/FXRP retro fairing: this Softail cannot hide its authentic “Clubstyle” DNA. With a discreet and specifically targeted “Clubstyle” upgrade from the Rick’s Motorcycles parts program, this can be intensified – and with the combination of Rick’s “Good Guys II” air filter and Dr. Jekyll & Mr. Hyde exhaust system, there is also a solid sound to match the look!

With the introduction of the Low Rider ST in January 2022, Harley-Davidson reacted quickly and very targeted to the market developments in the “Clubstyle” scene and the growing popularity of the “King of the Baggers” racing series in the USA. Power Baggers and Clubstyle conversions are trendy – and Rick’s Motorcycle is adding state-of-the-art performance parts to the market.
