Black Bob CCE

Mean Machine: CCE's 2013 Performance "Street Racer" from Rick's Motorcycles. 106 cubic inch muscle package with style!

For the 2013 season Rick's built one of the many noted Custom Chrome Europe "Bolt on and Ride" bikes, which are exposed worldwide in many custom bike magazines and appear during the season at all important events.

Representative for Rick's Motorcycles and the present custom trends, "Black Bob" has a timeless design - as most of Rick's custom bikes - but has nevertheless its own look, which distinguishes it from other Rick's custom bikes.
