Falco's Top Chopper

Friendships can be useful...how useful, should be obvious to everybody.

What a blessing then, that when building a custom bike, people like Patrick Knörzer or Wild Air Hörby are at hand, as was the case with Falco. Werner, better known as Falco, runs, together with his crew, a tattoo studio in Emmendingen. Creativity is a must in his job, which also shines through when it is about creating and planning a bike.
