Alley Cat

You can twist and turn it as you like, the former Dyna models don't exist any longer. And even if the Company writes on this basic model Street Bob in fat letters, it stays a Softail. Fans of the extremely successful Street Bob models with Twin Cam motor may curse this name-giving, but a buyer of a Street Bob from 2018 will value their entry level price, because when it came out, the Milwaukee-Eight with a Softail frame was offered at about 15,000 Euro.

At Rick's Motorcycles noble custom bikes and parts are being created, which on one hand stand for perfection, but depending on extent and effort can quickly burn a hole in your pocket. So how can you give the Street Bob a more individual appearance without costs going through the roof and without lowering one's own quality expectations?
