Back to the Roots

Back to the Roots - Softail Standard FXST "Bobber-Style" 114

In 2024, the iconic "Softail" frame celebrated its 40th birthday! Introduced in 1984 by Harley-Davidson to return as close as possible to the look of the classic rigid frame of the original 1936 Knucklehead, many Japanese and European competitors laughed it off as retro design and a technical step back. Yet it became an unparalleled success story for the then last American Motorcycle manufacturer. Softail frame and Evolution motor were the foundation of the Harley boom of the 90s and remained - despite radical changes introduced in the Milwaukee Eight Softail frame - THE popular base for Harley-customizing. More than enough reason for Rick's Motorcycles to introduce a "Back to the Roots" Softail conversion which takes the theme back to essentials.
