Flake King 300

This 300 Fat Boy from Rick's Motorcycles says it all, as the already fat Softail has been given a 300 tire, but the bike was naturally also kitted out with plenty of fine parts and components from the custom bike workshop in Baden-Baden. True to the motto "something of everything" and "only the best", a stunning custom bike was created, which can doubtlessly be called "typical Rick's".
