The Puncher

The Fat Boy is by far the most popular Harley-Davidson bike model and also a favourite as a basis for custom bikes, as many bike features on these pages show. The example shown here is further proof of a successful interpretation of a Fat Boy. What distinguishes it from others of its kind and makes it special can hardly be noticed by just looking at it, and only becomes obvious when opening up the gas. Screamin' Eagle Stage 4 is the magic word, which gives it a huge punch.
