Onix

Rick's Harley-Davidson® BADEN-BADEN | Authorized Harley-Davidson® Dealer

Onix

The Harley-Davidson Fat Boy models have always been very popular with the friends of the brand. Rick's Motorcycles has given this "fat boy" a deep black paint job and with it the appropriate name. In addition to the color, the "Onix" offers further highlights which ensure a unique look, but when Rick's decided on the components for the conversion, not all possibilities were exhausted. It would easily have been possible to use more parts from Rick's large parts program and to achieve an even more spectacular result, but that would have driven the price for the conversion up considerably.
