HARILY-CAYOSSON | Authorized Harley-Davidson® Dealer

## **Holy Virgin**

Slim at the front, Baroque at the rear!

The full Rick's package for Harley's 110 ci powerhouse!

It's no secret any longer: if you are looking for that special "kick" in the Harley-Davidson model program, people find it mostly in models which have been equipped with parts from the Screamin' Eagle tuning program. The components stem from the long racing experience that authorized Harley-Davidson dealers and their customers have gained especially on the drag strips, because in the USA what counts is above all the pull from below and acceleration. Speed limits on public roads are in some cases limited to 70 or 80 mph, whereas on German motorways the fun only starts then! After many years of testing in special limited CVO models, the 110 ci Twin Cam was during the last few years used in several models – also as an option for some Touring and Softail model series. The really excellent power performance makes this Twin Cam one of the most popular in the Harley-Davidson program!
