Silverado

Silverado - Street Bob FXBBS “Bobber” 114

Curtain UP for another sensational “Street Bob” by Rick’s Motorcycle! The “minimalized Streetbike” by Harley-Davidson as a cool Bobber conversion with swinging rear fender, as developed at Rick’s Motorcycles for advanced custom design. Add the Rick’s “Super Steve” wheel set with the “classic” three-piece assembled Rick’s Custom Wheels and you have a true eyecatcher! In 2018 Harley-Davidson challenged the customizing scene with the introduction of the Milwaukee Eight motor in a completely new Softail rolling chassis, a call that Rick’s Motorcycles immediately answered with new and stylish components!
