## Dark Slim

Black, low, fat rear and elegant on top? It is, of course, Rick's Softail Slim from Baden-Baden!

With some custom bikes one can see immediately where they have been built. The lines, the care of execution and the elegant impression which the machine makes, even when standing still, are always good indicators. To see on most parts the Rick's Motorcycles logo makes identification of course easier. Up to now Rick's team always succeeded to give new Harley-Davidson models the typical Rick's look, whereby the 2015 introduced Softail Slim makes an easy base: already the powerhouse, the 110 ci Screamin' Eagle Twin Cam B is one of the hottest engines available from the Factory!
