Time Machine

Milwaukee Eight "Slim" in "Antique-Style" look! Rick's Motorcycles FLSL Bobber with the "extra dose" of genuine Old School.

The fact that Rick's Motorcycles can customize great themed "Old School" projects has been in the company's DNA for decades, especially materializing in Rick's own Anniversary Bikes and some special projects. That they can go "one better" with a customer project is visible in this super-refined Softail Slim, Harley-Davidson's "Stock Bobber" which rolls off the assembly line with pre-destined fate: To become a true Bobber. For a 200 wide rear tyre, you don't necessarily have to grab one of the "Fat Ass" swingarms from Rick's shelves, this "milder" configuration also fits the standard swingarm and suspension. However, the TTS 16-inch rear wheel has been widened and re-spoked as a fitting spoke wheel featuring the trendy "classic" look is working at the front.
