## Sportster S „Leanster 200“

### Sportster S „Leanster 200“

Big size tire conversions, that's Rick's daily business – that's what the Baden-Baden based top-customizer is famous for. What they can and really want to perform are wide tyre conversions in the wildest dimensions. But they also can „go slim“ – if necessary... With the exciting “XR 240” and “Rickster 240” projects, they have proven that the Sportster S can also be fitted with a massive 240 tyre. But the „Sportster“ didn't get its name just by chance: „Sportster“ models have always been a bit slimmer than the rest of HD's V-Twins – and one fitting english word is “lean”.

## Tech Facts

**Manufacturer:** Harley-Davidson
