Sportster S "WHITE"

A white Shade of Sportster S

Rick's 2022 Sportster S with NEW Upgrades!

"Standstill is a step backwards" – this is one of the iron-cast principles of Rick's Motorcycles – and not just because this Sportster S conversion from Rick's again brings new and sophisticated customparts for a fairly new Harley-model. Can't sleep at night? Well, that can happen: Some details on the standard „S“ did not let the Rick's team rest until one of the typical "Rick's solutions" – visually upgrading the desired „clean look“ and on top some additional technical improvement – was found. Announced in the product flyer for the Sportster S, the two innovations were presented, yet introduced only as CAD sketches, as R&D was still under way. Now, here they are: already installed as Rick's production series parts!
