Fat Ass Sportster 48 extra wide with 240 tire

Rick's is mostly known for innovative high-tech customizing. With the 48 he tackled a best-seller from the Harley-Davidson portfolio in order to give it a clearly more individual look. To alone install the 240 tire at the rear, a whole series of steps were necessary. It started with widening the swingarm, which is stabilized with an additional bottom strut, up to the offset pulley, which takes the drive belt past the wheel. Many other features not only make a real stunner out of the stock 48 bike, but also a very special fun machine to ride.

Tech Facts

Manufacturer: Harley-Davidson
Modell: XL1200X '48'
Frame Type: Sportster
Year: 2015
Engine: Evolution 1200
Cui: 74
