Power-Rod

Rick's 180 bhp Power-Rod with 280 Metzeler tires

The wolf in sheep's clothing could not look more harmless.

OK, Rick's customs have a sharp look and stand out because of their wheels, but what the team from Baden-Baden did to the machine shown at Lake Faak in 2004 breaks all records of what has been seen on German roads before. A V-Rod with 160 bhp, measured at the rear wheel (!) and electronic gearbox. A drag bike for every day use with which to get a quick start at the lights! Trimmed to the highest performance in the USA, Rick's offers the power injection for the V-Rod also now here. A power increase with consequences: this V-Rod is fun to ride...devilish fun!

In 2004 the sun shone for Harley riders around Lake Faak, despite the week before the first snow settling on the Alps.

The European Bike Week at Lake Faak is becoming more and more a mega spectacle for the custom scene - and the bike premieres are many during this weekend. Rick's also showed the best customs from the House of Custom, and not only on the stand, but also in action around the lake. European Bike Week at Lake Faak has become a tradition for bike premieres.

Tech Facts

Manufacturer: Harley-Davidson
Modell: V-Rod B
Frame Type: V-Rod
Year: 2005

Engine: Revolution
Cui: 69
Air Cleaner: Harley-Davidson
Pipes: Harley-Davidson
Mufflers: Force
Fork: Harley Davidson

Swingarm: Rick's Motorcycles Mono-Swingarm V-Rod
Shock: Rick's Motorcycles Mono Shock
Frontwheel: Rick's Motorcycles
Design FW: Seven Sins 3-piece
Dimension FW: 3,5" x 18"
Tyre FW: Metzeler 130/60 18"
